

Guard Level® Tri-Stick-2A

High & Overfill Alarm Sensor w/ Temp Gauging and 1-M Dipstick

- **Level alarms, top off gauging and cargo temperature**
- **Combines independent high and overfill alarms, one meter rising tri-colored stick gauge, and cargo temperature gauging with readout at tank top**
- **8" (200mm) ANSI flange**
- **Test rod for testing level alarms and rising stick**
- **Temperature dry thermal well built to length**
- **Requires intrinsically safe DC power source for temperature gauging**
- **All stainless construction**
- **Option high temp (asphalt) 10" (250mm) flange**
